Our focus is on developing, customizing and integrating software solutions. Our services span to all types of industries and a range of various market segments, from factory and retail to government sector.

Single provider on software solutions, applications, IT service for your business

Why KESTONE

1. Distinguished References

Our outstanding record in catering to the security needs of the top players in all the industries we work with, armed with years of experience and extensive know-how, allows us to offer, not just products or services, but customized comprehensive solutions that suites your company's current and future needs

2. Fostering Relationships

We understand that business relations are the foundation of success, and that's why our priority is to build strong lasting relations with our customers, and our partners. We see our clients' business as ours, and we work continuously on bettering and fostering global partnerships, to be able to provide the optimum know-how and support to our customers

3. Know-How

Our people are our strongest asset. Over the years we have built a team of experienced, highly qualified, and regionally recognized technical support staff, that provides 24/7 support to our customers. And we did not just stop there! In line with our goal to spread our knowledge, and build a base of highly qualified security professionals, we have established an Academy for the training and qualification of IT graduates that will provide them with theoretical and practical experience, and enrich the scene of IT security in Egypt and the region

4. Not Products but Solutions

We enable our customers to maximize the utilization of their available tools. Through our experience with use cases, and familiarity with various attacks, accumulated through the years, we are able to customize our clients' systems to tune themselves and distinguish real threats from false positivity, thus saving our customers time and resources and allowing their security team to address the real attacks
